

Thermal Actuated Valves

Enhancing System Efficiency and Reliability

For Architects, Engineers, and Other Industry Professionals

Earn 1 PDH through this accredited session!

Accreditation Information: Accredited by ACEC and ASCE via the RCEP.

Purpose and Learning Objectives:

This in-depth session will delve into the crucial role of thermal-actuated valves in optimizing system performance across various industrial applications.

Learn:

- Fundamental principles and mechanics of thermal actuated valves.
- How these valves improve system efficiency and reliability.
- Best practices for selecting and integrating thermal actuated valves in different industrial applications.

Credit Earned: 1 PDH (Professional Development Hour)

Delivery Method: In-person

How to Host a Lunch & Learn: Contact Ken Kramer, ThermOmegaTech's Industrial Specification Manager at KKramer@thermomegatech.com or 267-631-5693

ThermOmegaTech has met the standards and requirements of the Registered Continuing Education Program. Credit earned on completion of this program will be reported to RCEP.net. Certification of Completion will be issued to all participants via the RCEP.net online system. As such, it does not include content that may be deemed or construed to be an approval or endorsement by the RCEP.
